

Legacy Donor Foundation organawareness.org

Education and awareness was the goal the Legacy Donor Foundation set for their website. Their message was to create a social consciousness of the vital importance and critical need for organ donations in our state. We helped spread this message of hope and encouragement with calming yet bold colors in a modern design, using calls to action on every page, and implementing an easy to use contribution form for accepting monetary donations over the internet. A different form serves a similar capacity in accepting donation pledges for their Donor Registry.
